*We Hail With
Pride*

We hail with pride those courageous young people of ours who are fighting to maintain the ideals that were incorporated into a new state on July 4, 1776. A state that was born fighting for its rights and has fought for them ever since—and won.

We want to do all we can to bring those youths turned fighting men home soon. It is our pledge and promise to them.

*United we stand
for Victory!*

We are glad of this opportunity to pay tribute to the men and women of Iberia parish and the vicinity who have donned our country's uniforms to fight for the principles laid down by our forefathers. Their sacrifices here and on far-flung battle fronts have made it possible for freedom's light to animate from the flambeau of that dear old gal which stands in New York harbor.
